6. Please explain your rating above regarding academic integrity of AI use for this submission. Why? (Write in 2-3 sentences) *

I think the use of AI for the project is somewhat acceptable. It's acceptable if you're using it for small portions of the code, or for things that you're completely stumped on. It's not acceptable if you're using it for most of the code, especially if you're not giving credit to it.

7. Did you use AI tools for this submission? *

☒ Yes

☐ No

8. For this submission, how would you rate the relative contribution made by you versus AI? *

| | Mostly by myself, some contribution by AI | Evenly split between myself and AI | Mostly by AI, some contribution by myself | Entirely by AI, no contribution from myself |
|-----------------------|---|------------------------------------|---|---|
| This submission is... | <input checked="" type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |

9. How did using AI content generators impact **your learning** for this submission? *

| | Greatly benefited my learning | Somewhat benefited my learning | Had no impact on my learning | Somewhat hinder ed my learning | Greatly hindered my learning |

| Using AI content generators for this submission... | <input checked="" type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |

10. Please explain your rating above about AI's impact on your learning for this submission. (Write in 2-3 sentences) *

The use of AI greatly benefitted my learning for this project because there were somethings that I just didn't know how to implement, and there were very few resources on those topics. It helped me understand what I was missing in my implementations, and also helped me learn how to tackle those problems in the future.

11. List the name all the AI tools that you used for this submission *

ChatGPT, Claude

12. How confident were you in AI's responses that you received? *

- ☐ Confident
- ☒ Somewhat confident
- ☐ Neutral
- ☐ Somewhat not confident
- ☐ Not confident

13. How did you ensure the answer you received from the AI tool was correct? *

I ensured the answers were correct by extensively testing the website to see if what I implemented with the answers actually worked

14. Did you at any point abandon using AI tools and seek other resources? Explain your answer. (optional)

What made you abandon using the AI tool? Were you more successful using other resources? Input N/A if you have not used any

16. Please explain your ratings above, especially if you have AI tools for "other" types of work. *

For writing, debugging, and explaining code, most of the work was done by me, with some help from AI. I used AI to help me implement the generate PDF features on the recipe popups and the scanner page. This is because I couldn't find any way online to cleanly save a recipe or nutrition analysis as a PDF, so then AI suggested that I could format the data using an HTML page on another tab, after which the user could cleanly save as a PDF. Aside from this, I sometimes used AI to help debug the console errors that I got from the website (mainly when I couldn't find info about the error online), and I also used AI to explain parts of the code for the generate PDF features.
